

# WORKSHOP ANNOUNCEMENT

We are pleased to announce that a workshop on “Clinical Decision Support Systems” will be held on January 22, 2014 (Bahman 2, 1392), with the cooperation of the School’s Education

Development Center and the Deputy Dean for International Affairs. The speaker of the workshop will be the School’s IT instructor and one of the international students.

The target audience is the international students as well as interested faculty members and students. The registration deadline is January 21, 2014. In order to register, please go to the education development office in person or call Ms. Farahani at 61054340. The first 30 registrants are prioritized for admission to the workshop. The workshop presentation is in English and participants will be given certificates of attendance.

## About Clinical Decision Support Systems

Clinical Decision Support Systems (CDSS) seem to be a hot topic for conference presentations and discussion lists these days.

CDSS is the technology designed to improve outcomes and patient safety, and suggested that reduce reliance on memory and decrease errors. Decision Support Systems are essential for effective integration of knowledge tools into clinical nursing practice. Nurses need to share ways to determine CDSS effectiveness, and disseminate related information to clinicians. If these tools are not well integrated into clinical workflow, clinicians discuss the use of them and may disagree and ignore recommendations. This workshop will give basic information about CDSS in nursing.

Workshop Title: **Decision Support Systems in Nursing**

Lecturers: Asieh Darvish and Addiss Adera Gebru, Location: School of Nursing and Midwifery, shoray2 , Attendance Capacity : 30 people
